REMARKS:

- For further information see relevant ENR 2 parts.
- CATANIA VFR ROUTES:
 - 1) Low shall be executed within 2 NM South of RWY extended centerline.
 - 2) Due to their specific location of activity, consider to operate according to ATIS procedure not issued within 17 days before origin of the flight.
 - 3) Various obstructions indicated by AGL, all VFR traffic using RWY 08 for operations not intended to proceed northward, shall be held heading 08 passing 1000 FT clearing before ascending a 5th turn for RWY 08 climb.
 - 4) VFR routes from Catania Air Traffic - Catania AD shall be shown at 2000 FT AMSL, unless it is stated to be otherwise on the chart.
 - 5) Reported obstacles in VFR routes are the maximum value.
